An administrator reports on recent master plan sessions

by Howard B. Weeks, PhD

vice-president for public relations and development

Four master planning task forces have begun an intensive four-month project in which Loma Linda University programs and priorities will be outlined for the next five years, Reinhold R. Bietz, chairman of the University Trustees, announced this week.

Emphasis will be placed on definition of University objectives within the purposes specified by the church, Mr. Bietz indicates, with major attention to greater economy and effectiveness of organization and operation.

Each of the task forces includes at least 14 persons selected from various segments of the University Councillors — and a specialist consultant.

In addition, task force chairmen may invite others to present information and opinions to the group as a guide in planning. Members of the University family who wish to express views or provide information are encouraged to contact the appropriate chairmen or administrators.

The planning council and its task forces, with their areas of studies and leadership are as follows:

The council: the "case" for Loma Linda University, governance, community services, facilities; Reinhold R. Bietz, chairman; University President David J. Bieber, administrator.

Task force on academic program: the academic program; Thomas J. Zwemer, DDS, chairman; Lowell R. Rasmussen, vice chairman; Robert E. Cleveland, PhD, administrator.

Task force on organization: structure, management, personnel, planning, and finance; W. Paul Bradley, chairman; George B. Nelson, vice chairman; Robert J. Radcliffe, administrator.

Task force on student affairs: recruiting, admissions, student life; Charles B. Hirsch, PhD, chairman; John W. Obsorn, vice chairman; Tracy R. Teele, administrator.

Task force on public relations and development: communications, public relations, fund raising; W. John Blacker, chairman; Erwin J. Remboldt, vice chairman; Howard B. Weeks, PhD, administrator.

Four months of project planning and preparation preceded the beginning of task force operation, including the development of extensive information about every major aspect of University organization and operation as a basis for study and projection.

The task forces will make interim reports to the master planning council on March 10 and final reports on April 20.

The planning council then reports to the University Trustees on May 18.

S.I. Hayakawa will speak at 'Kaleidoscope' 70

United States Congressman John V. Tunney of Riverside, announced candidate for the United States Senate from California, will help Loma Linda University begin its "Kaleidoscope 70" week February 16-22, scheduled as the highlight of the silver anniversary of the four-year baccalaureate program on the La Sierra campus of the University.

A class reunion is scheduled for the class of 1945, according to Thomas H. Blincoe, associate professor of theology and Christian philosophy at Andrews University, Berrien Springs, Michigan, class president.

Other events scheduled during "Kaleidoscope 70" will include speakers S. I. Hayakawa, PhD, president of San Francisco State College; Mrs. Medgar Evers, widow of the late field secretary for the National Association for the Advancement of Colored People; James W. Symington, United States Congressman from Missouri; and Alonzo L. Baker, PhD, professor of political science.

"The purpose of Kaleidoscope 70," according to Robert E. Lorenz, MD, alumni association president, "is to reunite as many members as possible of the class of 1945 for their silver anniversary, and to provide activities in which students, faculty, and alumni may become involved."

Ten departmental seminars are scheduled by the College of Arts and Sciences and the School of Education. Speakers include William Glasser, MD, author of *Reality Therapy*, and Bishop Gerald Kennedy.

A special premier concert on the new Casavant organ will be presented by Donald J. Vaughn, assistant professor of music, Monday evening, February 15, at 8:15 in Hole Memorial Auditorium.

The campus at La Sierra began in 1922 as an academy, developed into a junior college, a college, and merged with Loma Linda University in 1967.

Dental dean writes for new textbook

Assistant dean of the School of Dentistry Lloyd Baum, DMD, is a consulting editor of a new book published by W. B. Saunders Company, Philadelphia.

Dr. Baum is consulting editor of the section "Symposium on Pins" in the book *The Dental Clinics of North America*.

Pins, as related to dentistry, are used for two basic purposes — to make gold castings more secure, and to anchor amalgam restorations to the tooth structure.

Other School of Dentistry contributors include Charles T. Smith, DDS, dean, "Prefabricated Parallel Pin Castings"; and Raymond W. Dolph, DMD, assistant professor of oral medicine, "Intentional Implanting of Pins into Dental Pulp."

LOWELL R. RASMUSSEN, superintendent of education for the Pacific Union Conference of Seventh-day Adventists; David J. Bieber, president of Loma Linda University; and Robert E. Lorenz, MD, president of the La Sierra Alumni Association, lay plans for "Kaleidoscope 70," the College of Arts and Sciences silver anniversary celebration scheduled for February 16-22.

Tour tickets are still available for the Oberammergau play

More than 500,000 request for tickets to the world-famed Oberammergau Passion Play scheduled next summer in Germany have been turned down. But Wilfred J. Airey, PhD, professor of history, has the answer to the dilemma of people who still would like to see this once-in-a-decade play.

Arrangements were made to include the Oberammergau play, a centuries-old dramatization of the last days in the life of Christ, as part of a 22-day conducted tour which Dr. Airey plans next June and July.

The Oberammergau stop is only a highlight of a tour through seven countries, "The Best of Northern Europe," which can be made for \$777. The price includes sleeping accommodations, three meals a day, the cost of guides, entrance fees, and all group expenses except passports, visas, inoculations, and personal purchases. An alternate, non-student group will take a 15-day tour for \$666 which will also include seven countries, "The Best of Central Europe," but which will not include the event at Oberammergau.

College credit is available on the 22-day tour in either lower division (History of Western Civilization, 1500-1815) and upper division (The Reformation) courses, both of which carry three semester hours.

The tours are timed to commence just after the General Conference of Seventh-day

Adventists session scheduled at Atlantic City, New Jersey, June 11 to 20, so that delegates to that session may join the tour directly in New York on June 21.

For additional information, contact Dr. Airey, Loma Linda University, Riverside, California 92505.

California history class will begin in February

A special four evening non-credit course designed to meet the State of California requirements in California government will be taught by Robert E. Cleveland, PhD, vice president for academic affairs, beginning February 23.

It will meet in room 1A of Griggs Hall, Loma Linda campus, from 7 to 9 p.m. Classes are scheduled to meet February 23, March 2, 9, and 23. The final examination will be given March 30.

Registration for the class will be one half hour prior to the beginning of the first session. Charge for the four classes and examination is \$20.

The textbook to be used is Hyink Brown, and Thacker's "Politics and Government in California," available at the University Book Store.

Further information is available at the Office of the Registrar on the Loma Linda campus.

MEMBERS OF TASK FORCE ONE, THE COMMITTEE ON ACADEMIC AFFAIRS and one of four task force groups set up by Loma Linda University's master planning council, discuss plans for the academic programs at a meeting held last Monday. Members attending the session include N. Clifford Sorensen, superintendent of education for the Southern California Conference of Seventh-day Adventists; David B. Hinshaw, MD, dean of the School of Medicine; Wesley I. Unterseher, director of development; Lowell R. Rasmussen, superintendent of education for the Pacific Union Conference of Seventh-day Adventists; Thomas J. Zwemer, DDS, chairman of task force one, member of the University Trustees, and associate dean of the Medical College of Georgia, Augusta; J. Paul Stauffer, PhD, dean of the Graduate School; Willard H. Meier, EdD, dean of the School of Education; Donald E. Lee, PhD, registrar; Wynelle J. Huff, associate dean for the baccalaureate program in the School of Nursing; and Fritz Guy, assistant professor of theology and philosophy.

'Kaleidoscope 70'

"Kaleidoscope 70" marks two significant landmarks — the 25th anniversary of the first class to earn bachelors degrees at La Sierra and the "coming to life" of the college's alumni association.

With alumni, generally, playing an every increasing role in decision making and support activities of institutions of higher learning, it is satisfying to witness the present burst of energy characterizing alumni from La Sierra.

Alumni participation in the week-long series of events called "Kaleidoscope 70" suggests that this burst of life is more than a spasm of nostalgia for school days that are forever gone. It is evidence of an awakening to the fact that the College of Arts and Sciences and the School of Education represent values and resources that are vital and relevant to the needs of spaceage people.

Like a gangling teen-ager who imperceptibly and quite suddenly becomes a beautiful woman, La Sierra must now be recognized as an institution of unique quality and great promise.

Speakers, programs, and exhibits making up "Kaleidoscope 70" will focus our attention, not on the past, but on the future. That, according to thoughtful alumni, is where hope for mankind lies.

It could be said, with ample justification, that we've "had a good thing" at La Sierra for some time. The significant thing is that alumni are now becoming aware of the fact. They've seen enough of the world to gain some insight and draw some conclusions.

"Kaleidoscope 70" should help us all see the light.

Why continuing education?

Most people these days have learned that book learning doesn't end at graduation. Few, however, are aware of the rapid advances and frequent discoveries that keep the pot boiling in all professions. Physicians, ministers, teachers, dentists, therapists, and nurses — to name a few — must cope with a torrent of new knowledge or they will find themselves trapped in eddies of mediocrity.

People who have the courage to look honestly into the seventies are struck by the need for mobility and growth. They sense that established ideas along with the establishment will be under fire. They suspect that there can be no substitute for individual understanding and competence. Each person must know where he is going and why. If he does not, he will either stagnate or be swept into currents of extremism.

Of even greater significance is the realization that the next decade offers unprecedented opportunities for effective service to God and mankind. Doors that were closed or that did not even exist are opening on every hand. Each of us has the sobering duty of investing his life in a responsible manner.

If this is true with professional people, it is also true with mothers, housewives, and retired people. A complex and need-filled society challenges every thoughtful, resourceful person.

Because of this, the officers of Loma Linda University have joined alumni in promoting a diversity of programs in continuing education. The scores of courses, lectures, and discussions that comprise the School of Medicine Alumni Postgraduate Convention are more than "refresher courses." They are designed to bring the benefits of emerging concepts to physicians who are never satisfied with past performances.

Dentists attending the School of Dentistry Alumni-Student Convention will return to their practices with new insight and new therapeutic techniques.

The thousand or more people enrolled in University extension classes will discover through fresh knowledge new dimensions of service, influence, and satisfaction. The same should be said of continuing education programs conducted by the College of Arts and Sciences and by the Schools of Education, Nursing, Public Health, and Health Related Professions.

Letters

To the Editor

Sir:

In recent issues of University SCOPE a few letters to the editor discussing optional attendance at chapel services have been published.

I have always considered chapels to be to the University what family worship is to the home. Reliable sources state that the repetition of this service in the Jewish home has kept these people and their families from being submerged into the world stream of other nations.

Several decades in the past I attended an assembly at which only about 10 percent of the student body came because attendance was optional. Recently, I used a thought from that chapel's lecture to persuade Dr. S. I. Hayakawa to come to our campus next month to participate in one the College of Arts and Sciences silver anniversary lectures.

Since he accepted my request, it means that the lecture of the past is still relevant to today's need. Hence, the 90 percent or less of

the student body may have considered it a waste of time, at least each one selected an activity which provided a more agreeable choice.

I have always favored attempts to improve not only the chapel program but each part of the activities of the University. I would not expect a Haight-Ashbury reject to promote attendance at a Loma Linda University chapel. But I would expect any student who accepts registration and who is familiar with the University motto to be in attendance.

Each class will be measured by its academic activities, teaching, learning, performing research, and fostering scholarship. But most of all, each class will be measured by its own constructive effort on each other. The shape of the mold, "to make man whole," has many avenues, all of which emanate from the chapel period.

Valentine's banquet Feb. 12

A semiformal Valentine's banquet for Loma Linda campus students and faculty is scheduled for Thursday, February 12, at the Riveria Hotel in Palm Springs.

Cost of the banquet is \$4 per person which includes the meal and entertainment. The program, "Candlelight and Roses," begins at 7:30 p.m.

Tickets, available at the Student Affairs Office and Daniells Hall, may be charged to student accounts.

Basketball began this week

Intramural basketball season began this week at Loma Linda University with three leagues making up the schedule. All games will be played in Gentry Gymnasium.

"A" League teams are the sophomore, junior, and senior medical students, a team from the Graduate School, and the senior dental students.

The "B" League consists of the freshman, sophomore, and junior dental students, the freshman medical students, and a physical therapy team.

The second teams from the sophomore, junior, and senior medical students, a third team from the junior medical students, and one from Loma Linda Academy comprise the "C" League.

All "A" League games are played on Wednesday nights, "B" League games on Thursday nights, and "C" League on Monday nights. All games start at either 7 or 8:30 p.m.

Nixon lauds heart team's six-week mission to Greece

The Loma Linda University Heart Surgery Team returned recently from Greece to receive plaudits from United States President Richard M. Nixon.

The team, composed of heart specialists, performed 31 operations during their six-week stay.

This was the second such trip to Greece by the team. The first trip was in 1967 when they performed 30 heart operations. Some of the patients operated on in 1969 were advised by the 1967 team to have surgery within a few years or lose their lives.

During the team's stay in Greece, operations were performed in Athens at the 1,300-bed Evangelismos Hospital.

The screening of patients to be treated was based on recommendations of both Greek physicians and the American team. Only those patients with the more urgent problems were operated on.

Ellsworth E. Wareham, MD, professor of surgery, said the Greek surgeons worked along side the American surgeons "to educate the Greek people to the fact their own doctors can do this type of surgery."

While in Greece, nearly a ton of supplies, including plastic heart valves, antibiotics, cardiac medicines, heart-lung machine tubing, disposable surgical supplies, and medications were used by the Loma Linda team.

A team spokesman said, as a

result of the two trips, Greek physicians have more knowledge of the techniques of open-heart surgery, "they now have more of the basics needed to do their open-heart surgery, and certainly the time, equipment, and skills of the American team increase the goodwill between Greece and the United States."

On their trip home, the team stopped in Washington, D.C., and met with President Nixon.

Dr. Wareham said the President lauded the team for attempting to build good relations between countries. The president said that he "felt the team's effort created a favorable image of America."

Travel expenses the team between New York and Athens were underwritten by Greek shipping magnate Aristotle Onassis.

The invitation to the team by the Greek government for the return trip was also a result of similar trips started in 1963.

After a successful operation in 1963 to correct a congenital heart defect in the daughter of a Pakistani farmer, word of the team's efforts spread throughout the world.

The United States Department of State with the aid of then vice president Lyndon B. Johnson arranged for the surgical team to travel throughout Asia. Operations were performed in Pakistan, India, Thailand, and the Republic of China.

You have
24 hours
to live.

Today, that is. So what
are you doing with your time?
Are you helping another
human being toward the
dignity you want for your-
self? Are you doing anything
to overcome the hate in this
world—with love? These 24
hours can be a great time
to be alive. If you live right.

Break the hate habit: love your neighbor.

HEART TEAM IN GREECE

C. JOAN COGGIN, MD, examines one of the more than 350 patients seen by the heart team. One third of the patients were under 15 years of age.

HEART-LUNG MACHINE TECHNICIAN Raymond M. Savage adjusts tubing on the machine prior to surgery.

THE LOMA LINDA UNIVERSITY TEAM operated on 31 patients during their six-week stay in Athens. Pictured (left to right) are Ellsworth E. Wareham, MD; Leonard L. Bailey, MD; Wilfred M. Huse, MD; and Constantine Linardos, MD.

EIGHT-YEAR-OLD SPIRO VAROUXIS listens to his heart with a stethoscope following open-heart surgery. Spiro, the "pet" of the team, was operated on for a hole in his heart.

DR. COGGIN AND DR. WAREHAM meet with the prime minister of Greece, George Papadopoulos, who commended the team on its work in Greece and invited the team back for a third visit.

LOMA LINDA UNIVERSITY HEART SURGERY TEAM members meet with President Richard M. Nixon in his White House office. Pictured (left to right) are Constantine Linardos, cardiovascular surgeon from New York City; Allen L. Brandt, MD, associate professor of anesthesiology; D. Larry Miller, SM'70; Lavaun W. Sutton, associate professor of nursing; congressman Jerry L. Pettis, 33rd Congressional district; Ellsworth E. Wareham, MD, professor of surgery; President Nixon; C. Joan Coggin, MD, assistant

professor of medicine; Peter M. Kalellis, pastor of the Westfield, New Jersey, Greek Orthodox Church; Wilfred M. Huse, MD, assistant professor of surgery; Roy V. Jutzy, MD, assistant professor of medicine; Ann J. Ekroth, operating room nurse; Richard W. Weismeyer, public information officer; Leonard L. Bailey, MD, intern at University Hospital.

First black-American history class at LLU is announced

For the first time in its history, Loma Linda University is offering a black history course for credit beginning second semester on the La Sierra campus.

Teaching the course will be Emory J. Tolbert, a graduate of Atlantic Union College, South Lancaster, Massachusetts and a graduate assistant in the College of Arts and Sciences department of history.

Mr. Tolbert was graduated cum laude from AUC in 1968 and was president of his senior class. Last year he offered a non-credit black studies seminar on the La Sierra campus in order to sample the level of interest in the subject. Although the seminar did not lead to academic credit and the class sessions were held in the evening during the dinner hour, 20 to 40 students attended throughout the semester.

The course content includes a survey of the African background, the arrival of the first black people in North America in 1619, and history of the black man to the present time.

Also included in the course will be discussion on racism, black power, and the relevance of Christianity to racial situations. Stress will be placed on independent study and thinking.

Mr. Tolbert states that "if the Christian identity is what it ought to be, identification with Christ ought to supersede the human desire to separate the races." Unfortunately, he feels that this concept is too simple and idealistic to be practical.

The course is being taught because, as Mr. Tolbert suggests,

BOSTON
Modest, but adequate furnished, bedroom apartment for rent June 1, 1970 to Sept. 1, 1971 at \$175 per month. Write Larry Geraty, 55 Carver Rd., Watertown, Mass. 02172 or phone (617) 924-1235.

Urban minority expert visits Loma Linda

An anthropologist from the University of Windsor, Windsor, Canada, was the guest of the Graduate School department of sociology and anthropology recently.

Angelo R. Orona, PhD, an authority on the South American fisher peoples, was hosted by John W. Elick, PhD, chairman of the department, and James H. Stirling, PhD, assistant professor of anthropology.

Dr. Orona is also a specialist on the problems of urban minorities in southern California.

the topic has been seriously neglected in the past at the University. Regular history textbooks seldom give proper attention to black people.

Mr. Tolbert strongly feels that more attention should be given to minority groups. "The particular situation of the black man in America has tended to keep him separate from the rest of society, especially in the social sense."

In view of the present situation, Mr. Tolbert has "found ignorance in the importance of black rights and civil rights, especially in the history of the black man's struggle for survival." He expressed a desire to have the course "serve as some sort of corrective for this situation."

Mr. Tolbert says that it is "not necessary for whites to know black history just because they come in contact with a black minority." A study of black history would be of value to white students as well as black, because it would help them understand "their own history better, and also better understand black myths and negative white attitudes."

ADA president is featured speaker at dental convention

American Dental Association president Harry M. Klenda, DDS, will be the keynote speaker at the tenth annual Loma Linda University School of Dentistry Alumni-Student Convention scheduled for February 27 to March 3, according to Charles T. Smith, DDS, dean of the school.

Attendance of more than 1,200 dentists, dental hygienists, and students of the two professions is expected at the convention on the Loma Linda campus.

Dr. Klenda's keynote speech, "Dentistry's Thrust of Progress," will be held in Burden Hall at 9 a.m., Monday, March 2.

In general dentistry practice since his graduation from Loyola University Dental School, Chicago, in 1931, Dr. Klenda is past president and one of the founders of the American Academy of Dental Practice Administration and past president of the Kansas Dental Association, the Seventh District Dental Society, and the Wichita Dental Society.

Dr. Klenda has been active in the American Dental Association serving as its first vice president, on its Council of Dental Laboratory Relations, and as a consultant to its Council on Dental Health. Currently, he is on the faculty of the Wichita State University Dental Hygiene School and the Wichita Dental Assistant Vocation School.

Highlighting the convention will be dedication of the Loma Linda University School of Dentistry in the memory of M. Webster Prince, DDS, first dean of the school. The ceremony will take place immediately following Dr. Klenda's speech.

Other convention activities will include the annual student table clinic competition to be judged by a panel of 10 leading dental authorities. The scientific exhibits, originated and prepared by dental and dental hygiene students, display advances in basic science and research and in clinical application and techniques.

The table clinics will be on exhibit throughout most of the convention in Gentry Gymnasium. Winners will be awarded prizes at a banquet

Monday evening, March 2. First place winners will represent the University in the national competition at the 1970 meeting of the American Dental Association.

Judges for the convention competition will be Harry M. Klenda, DDS, president of the American Dental Association; William C. Crockatt, DDS, Utah State Board of Health; Dale F. Redig, DDS, dean, University of the Pacific School of Dentistry, San Francisco; Louis G. Terkla, DDS, dean, University of Oregon Dental School, Eugene; Gerald D. Timmons, DDS, member of the National Advisory Dental Research Council.

Roger K. Trueblood, DDS, treasurer, American Dental Association; Philip J. Youngblood, DDS, president, Nevada State Dental Society; George J. Denzler, Jr., DDS, president, Tri-County Dental Society; U. William Riedel, DDS, president, Southern California Dental Association; and Mrs. Irene Navarre, speaker of the House of Delegates and regional consultant for the American Dental Hygienists Association Division of Educational Services.

Also on display during the convention will be nearly 100 commercial exhibits of products used in the dental profession.

Preceding the two-day convention will be a series of continuing education courses offered by leading authorities in the field of dentistry. Information about the post-graduate courses may be obtained from the Continuing Education Office, Loma Linda University School of Dentistry, Loma Linda, California, 92354.

A benefit program featuring the Roger Wagner Chorale will be held Saturday night, February 28, at Landis Auditorium, Riverside City College, Riverside.

Alumni and student visitors to the convention will also hear guest lecturers Daniel F. Gordon, DDS, associate clinical professor of prosthodontics, University of Southern California School of Dentistry, Los Angeles, "Problems in Prosthodontics — How to Anticipate and Avoid Them"; Harold C. Slavkin, DDS, assistant professor of biochemistry, USC School of Dentistry, "How Integration and Segregation Effects Periodontal Therapy"; and Daniel D. Hill, director of certification, American Dental Assistants Association, "Before We Get to Expanded Duties."

African UN ambassador will speak on both campuses

Davidson Nicol, MD, PhD, African educator, former university president, and now Sierra Leone's ambassador and head of his country's permanent mission to the United Nations, will be guest speaker at the first of a series of four lectures scheduled by Loma Linda University.

Ambassador Nicol will give a public lecture on "The American Contribution to Africa in the 20th Century," Monday, February 9, at 8 p.m. in Burden Hall on the Loma Linda campus. Admission is free.

The visiting lectures program under which Dr. Nicol comes to the university was initiated in 1957 by the arts program of the

Dr. Nicol

Association of American Colleges, and is supported by a grant from the Danforth Foundation. Its purpose is to assist colleges in their efforts to strengthen liberal education.

Dr. Nicol holds a bachelor of arts, master of arts, a doctor of medicine, and a doctor of philosophy degrees from Cambridge University, Cambridge, England.

Ambassador Nicol became the president of the University of Sierra Leone in 1966. He is a director of the Central Bank of Sierra Leone and has held memberships on various international commissions in Africa on health, science, and education.

He will also speak at the La Sierra campus of the University on Tuesday, February 10, at 10:25 a.m. in College Hall. His topic will be "Modern Soldiers and Politicians in Africa."

Extension education courses announced for next semester

Managing Family Finance is the title of a course designed to help students achieve economy in family budgeting to be taught second semester by E. Lee Becker, University controller.

Other classes available through extension education include Guidelines for Successful Parenthood, a course emphasizing premarital counseling, prenatal influence, and pregnancy nutrition taught by Jack R. Kennedy, MD, assistant professor of gynecology and obstetrics; Unfolding the Revelation, a verse-by-verse study of the Revelation; Home Decorating: Beauty on a Thin Dime, a course on inexpensive home decorating; Scuba Diving; and six different courses in aviation.

Though most extension courses are offered on the two campuses

of the University, classes are also available in Glendale; Reno, Nevada; Bakersfield; San Deigo; San Fernando; Phoenix, Arizona; Salt Lake City, Utah; Fresno; Naha, Okinawa; and the White Memorial Medical Center, Los Angeles.

Persons not regularly registered as students are eligible to take the classes offered through the extension program whether they are interested in earning a degree or not. Most courses are also available on a noncredit basis.

Further information may be obtained by writing Vernon H. Koenig, EdD, Director of Extension, Loma Linda University, Riverside, California, 92505; or call (714) 689-4321, Ext. 407.

(For a complete list of classes offered second semester, see box below).

Medicine, dentistry

Early acceptances announced

One hundred twenty-three students have been accepted to Loma Linda University School of Medicine for the 1970-71 school year, according to Walter B. Clark, dean of admissions.

Students who will enter the School of Medicine next August are:

Richard J. Aasheim, Takoma Park, Maryland; Delmar R. Aitken, Omaha, Nebraska; Sharren E. Anderson, Hendersonville, North Carolina; Randy R. Beem, Apple Valley; Daniel O. Benson, Visalia; Douglas W. Benson, San Francisco; William S. Berkey Jr., Collegedale, Tennessee; Paul E. Betlinski, Lincoln, Nebraska; Brent A. Bills, Toldeo, Ohio; Walter R. Bobst, Susanville.

Raymond M. Bonneau, Sunneyvale; Stephen E. Brown, Angwin; James A. Bruce, Singapore; Kathlene E. Brueske, Angwin; Lawrence E. Brunel, Corcoran; Gary B. Bryant, Woodbury, Tennessee; Urs M. Bryner, Riverside; Eriberto Carrion, Far Rockaway, New York; Kenneth D. Christman, Keene, Texas; Loella E. Clark, Lincoln, Nebraska.

Gerald E. Dalgleish, Loma Linda; Jon S. Davis, Riverside; Darwin M. Dickerson, Coopersville, Michigan; Jon F. Dingeldein, Santa Barbara; Martin W. Durkin, Collegedale, Tennessee; Winston L. Elliston, Decatur, Georgia; Dwight C. Evans, Madison, Tennessee; Timothy E. Evens, Torrance; Jerry D. Fessler, Lodi; Deo F. Fisher, Tracy.

Helmuth F. Fritz, Fortuna; Fenton E. Froom, Jr., Staunton, Virginia; Kenneth V. Gard, Kingsbury; Geoffrey A. Gardiner, Loma Linda; Michael R. Gebauer, Adelphi, Maryland; Charles C. George, Loma Linda; Richard H. Guth, Columbus, Wisconsin; William C. Hayton, Redlands; William H. Hazle, La Mesa; Darryl G. Heustis, Riverside.

Thomas H. Hickerson, Port Hueneme; Joseph K. Hindman, Tuscon, Arizona; Douglas J. Hosking, Berrien Springs, Michigan; Gary G. Huffaker, La Grange, Illinois; Dennis C. Hughes, Salt Lake City, Utah; Claude G. Hullquist, Yucaipa; Barbara L. Hundley, Huntsville, Alabama; Joseph B. Jackson, Loma Linda; Wayne K. Jacobsen, Claremont; Daniel S. Janik, Seattle, Washington.

Gordon E. Johns, Berrien Springs, Michigan; John C. Jordan, La Crescent, Minnesota; Dan Kanada, Los Angeles; Gale T. Kanemitsu, Molokai, Hawaii; Robert J. Karmy, Chelalis,

Washington; Leslie L. Kiesz, Bakersfield; Donald R. Knittel, Portland, Oregon; Brian J. Koos, San Marcus, Texas; Lynda M. Kostenko, Centerville, Ohio; Kent A. Kreuder, Turlock.

Gary W. Langston, Takoma Park, Maryland; Daniel G. Lewis, Silver Spring, Maryland; Raymond L. Lilly, Jr., Atlanta, Georgia; Alice Fong Cheung Lo, Hong Kong; David B. McBroom, Collegedale, Tennessee; Stephen D. McDonald, Riverside; David D. McFadden, Berrien Springs, Michigan; Vance J. Maloney, III, Keene, Texas; Melvin L. Mayer, Riverside; Paul R. Meier, Riverside.

Gordon A. Miller, Days Creek, Oregon; Dennis L. Moseley, San Bernardino; Jon R. Mundall, Sedona; David W. Nelson, Angwin; Harry C. Nelson, III, Miami, Florida; Larry A. Park, Portland, Oregon; Elizabeth A. Randall, Glendale; Jeanne L. Reed, Riverside; Prudenica C.

Students discover smog adds new clothes 'wrinkle'

Smog may shorten the life of fabrics and make them more subject to wrinkles, according to studies completed by two La Sierra campus graduate students, Elizabeth S. Hosking, of Riverside, and Sylvia D. Krutsch, of Bullhead City, Arizona.

Tigner, Sebastopol; George F. Tolhurst, Collegedale, Tennessee; Millard C. Trott, Mt. Vernon, Ohio; Darrell L. Vaughan, Angwin; Ellwood G. Voorhees, Berrien Springs, Michigan; Edgar O. Vyhmeister, Loma Linda.

Gary A. Walter, Phoenix, Arizona; Michael H. Walter, Colfax, Washington; James E. Wasenmiller, Portland, Oregon; Neal E. Wearner, Angwin; John S. Webster, Fresno; Laurence J. Weekes, Couva, Trinidad; Mark E. Weigley, Halifax, Pennsylvania; Gary M. Wenick, Brea; Martin W. Wieler, Downey; Fred E. Wier, San Antonio, Texas.

Gayle R. Wilson, Grants Pass, Oregon; Deane L. Wolcott, Loma Linda; Ronald Nen Wong, Sacramento.

C. Ray Thompson, PhD, of the statewide Air Pollution Research Center at the University of California, Riverside, said that as far as he knows the Loma Linda University studies are unique. "Very little attention has been paid to the effects of air pollution on fabrics," said Dr. Thompson.

The women discovered that pollutants reduce the wear of fabrics, cotton with wash and wear finish being the weakest fabric tested.

The studies resulted from an observation made three years ago by Bonita Farmer, assistant professor of textiles. She noticed that her brand-new draperies were showing unusual signs of wear, and she suspected smog as the cause.

Mrs. Hosking and Mrs. Krutsch completed their master's theses on their tests. The actual tests were conducted in cooperation with Dr. Thompson and UCR, which let the women put 144 pieces of fabric in plastic greenhouses the

university has set up to do tests on the effects of pollutants on oranges.

Samples of fabrics were hung on lines beside fruit in 16 separate houses, some of which had filtered air in which pollutants were removed, some had samples of the air just as it is, and some had varying amounts of nitrogen dioxide added.

Cloth used in the tests were all-white samples (the University of North Carolina already found that pollutants can damage colored fabric), and the materials included 100 percent cotton, a cotton-polyester blend, polyester, cotton with a wash-and-wear finish, and polyester and cotton with a permanent-press finish.

The material was tested periodically after one month of exposure to the varying conditions by placing swatches of the fabric in a tumbler revolving at 3,000 revolutions per minute. Afterward the samples were weighed to measure the amount of damage.

HOW TO PICK A TOUR

When it comes to world travel there are four types of tours: excellent, good, mediocre, and bad. How can one be sure he is getting an excellent tour?

Here are five tour yardsticks:

1. **Hotels:** Does the prospective tour give you a list of hotels before you start? If not, be suspicious. Perhaps there are too many second and third rate hotels.
2. **Meals:** Are you furnished three meals a day throughout the tour? Are they the drab, set table d'hote meals, or are they a la carte, giving you a choice?
3. **Tour Size:** Is your tour limited, or will you be one of a crowd?
4. **Anything Different:** Does the tour do the same old spots, or does it take you to some places most tourists never see?
5. **Tour Conductor:** Is your tour conductor new at his job? Is he using you as a guinea pig while he learns how? Can he do anything except count the luggage?

Let's apply these five criteria to Dr. Alonzo Baker's 1970 summer tour around the world:

1. His tour brochure lists all hotels. You will note the preponderance of the Hiltons, the Intercontinentals. Most are air-conditioned.
2. His tour provides three meals a day throughout. In all hotels serving a la carte (about 75%) you will have a la carte meals.
3. His tour has an absolute limit of 26 members.
4. His tour includes many places many people have never even heard of, such as Udai-pur, Brunei, Shiraz, Katmandu, Bukhara, Izmir, Bali, Ankara, Srinagar, Swat, and scores of others off the tourist trail.
5. The Baker tour conductor has traveled the globe for 40 years. On his tours he gives frequent evening lectures on the peoples, the history, the economics, the geography, and the politics of the areas visited. He has taught world affairs and international relations in three universities, and is still doing it. Many tour members have declared his lectures "most informative," "delightful," "entertaining," "worth the price of the whole tour."

NASA physician will speak at annual alumni conclave

The 38th annual Alumni Postgraduate Convention sponsored by the alumni association and the faculty of Loma Linda University School of Medicine will be in the Ambassador Hotel, Los Angeles, and on the Loma Linda campus of the University.

The convention, scheduled for February 15 to 19, will include refresher courses in various medical specialty areas taught by School of Medicine faculty members, and a scientific program featuring current research reports by authorities from leading United States medical schools.

Alumni as well as interested physicians are invited to register for the refresher courses beginning Sunday, February 15, at 8:30 a.m., in the nursing amphitheatre on sixth floor of University Hospital.

The scientific assembly at the Ambassador Hotel will combine research reports by national medical authorities with discussions, clinical films, and closed-circuit color television demonstrations of medical and

Dr. Berry's speech will be presented as the third annual Percy T. Magan Memorial Lectureship. His topic will be "How Man Has Fared in Space."

Also speaking at the convention is Mark O. Hatfield, member of the United States Senate from

Senator Hatfield

Oregon. Senator Hatfield will speak Wednesday, February 18, at 7 p.m. in the Embassy Room of the Ambassador Hotel.

Registration for the convention will begin at 8 a.m., February 15, at the Alumni Association Office, 24887 Taylor Street, Loma Linda.

(For a schedule of the Scientific Assembly Program of the convention, see box below).

Dr. Berry

surgical procedures and techniques.

Included among the speakers are Captain Bruce A. Mazat, SM'66, of the United States Marine Corps, who will give an "Update: Vietnam Medical Intelligence"; Melvin P. Judkins, MD, chairman, department of radiology; David B. Hinshaw, MD, dean, School of Medicine; and Charles A. Berry, MD, medical director of astronauts for the National Aeronautics and Space Administration, Houston, Texas.

EUROPE

\$200 to \$295 round trip. Also to Israel and Orient. Rep. Amit Peles. (714) 735-9140 or (714) 737-4684. 1562B-2 Pleasant View Ave., Corona Calif. 91720. Loma Linda E.S. E.P. members only.

And now, a word about not wearing safety belts.

Doctors' wives plot activities for SM alumni convention

The Woman's Auxiliary to the Alumni Association of Loma Linda University School of Medicine is planning a full schedule of activities for the wives of physicians attending the Alumni-Postgraduate Convention February 13-19, announces Mrs. George C. Gay, president.

Kicking off the proceedings will be a satire of the Huntley and Brinkley television news broadcast called "Barefoot in the Gym," presented on the stage of Loma Linda University's Gentry Gymnasium, Saturday, February 14, at 7:30 p.m.

School of Medicine alumni and students will perform in the play which will benefit the auxiliary's project "Do Unto Others," which gives aid to widows and orphans of Loma Linda University alumni.

Sunday, February 15, features Hospitality Day in the Fellowship Hall of University Church, Loma Linda. Monday will include a tour of the University of California, Irvine, followed by a fashion show held during a luncheon at the Tale of the Whale Restaurant, Balboa.

On Tuesday in the Embassy Room of the Ambassador Hotel, Los Angeles, humorist Peg Bracken, author of the *I Hate to Cook Book*, will talk on "A Funny Thing About Women" at the annual homecoming luncheon. Music will be provided by the Estyn Goss Chorale.

For further information write Woman's Auxiliary to the Alumni Association of Loma Linda University School of Medicine, 1832 Michigan Avenue, Los Angeles, California, 90033; or call (213) 262-6969.

**"I didn't
get to go,
but my son
is going
to college."**

Millions of parents want something better for their children. They're sending their sons and daughters to college. Saving. spending. to do it.

They're buying the best education the world has ever offered. But the fact is, tuitions aren't paying for it.

Tuitions, on the average, now cover only 1/3 the cost of higher education. The rest must come from other sources. The amount of the difference is billions of dollars, and growing annually.

Education for more of our young people (there are now over 7,000,000 in our colleges and universities) is more than an American dream come true. It's an American need. These are our future doctors, lawyers, scientists, engineers, politicians and businessmen. They will help to shape our economic and social progress.

The costs that tuitions don't cover can cause financial crisis in our colleges and universities. To keep higher education moving forward, colleges need more financial support from more individuals, and from more businesses.

To better understand the need, ask a college.

Give to the college of your choice.

'Kaleidoscope 70'

Highlights outlined

Twenty-one of the 24 members of the La Sierra College class of 1945 who received bachelors degrees will join in the reunion scheduled as a highlight of "Kaleidoscope 70," February 16-22, according to Robert E. Lorenz, MD, president of the La Sierra College Alumni Association.

The 1945 alumni will come from as far away as 3000 miles, or — if recent return from mission fields is taken into account — from halfway around the world. La Sierra alumni leaders hope that several hundred or more of the approximately 3000 La Sierra graduates will take part in "Kaleidoscope 70" activities.

"Kaleidoscope 70" is an alumni-sponsored week commemorating the silver anniversary of La Sierra's status as a four-year institution, the class of 1945 having been first to receive baccalaureate degrees. The class, typical of others that have gone on from La Sierra in ensuing years, contained a large percentage of Seventh-day Adventist church workers including doctors, teachers, and ministers. Three class members went on to receive doctoral degrees and a number served one or more tours of service in mission fields.

The "Kaleidoscope 70" schedule includes nationally-known speakers. Among them are Mrs. Medgar Evers, widow of the field secretary of the National Association for the Advancement of Colored People (NAACP); S.I. Hayakawa, PhD, the president of San Francisco State College, who gained prominence first as a semanticist and more recently for the firm hand with which he handled campus unrest; United States Congressman John V.

1960-62 and 1962-64; and David J. Bieber, who succeeded Dr. Landeen in 1964 and became Loma Linda University president in 1967 when La Sierra College and Loma Linda University were merged. Missing will be the late Fabian A. Meier, PhD, who died in 1963 in his second year as president.

A wood carving of the six presidents made by former La Sierra faculty member Alwin Toews will be presented to the University during "Kaleidoscope 70" activities.

Organ unveiled

"Kaleidoscope 70" will include the public unveiling of the new, custom-made Casavant organ, a three-manual, 60-rank instrument recently installed in Hole Memorial Auditorium which replaces the Walt Disney's "Mickey Mouse" organ once used to provide background music for cartoons. Also unveiled will be the Barnard Observatory, a two-story structure on the slope of "Two-Bit" mountain, with a rotating alumim dome which weighs 1000 pounds. Campus radio station KLLU-FM (formerly KSDA), back on the air after a year of technical and legal problems, will be open to visitors showing the strides being made toward realization of a true University-wide broadcast service.

"Kaleidoscope 70" will begin with Congressman Tunney's address at 6:30 p.m. followed by the 8:15 p.m. Casavant organ concert, presented by Donald J. Vaughn, class of 1960, assistant professor of music.

Mr. Bietz will speak at the Tuesday student assembly scheduled for 10:20 a.m. in the La Sierra Seventh-day Adventist Church. His topic will be "Changing Patterns."

Wednesday's highlight will be the class of 1945's reception for students of the class of '70. A day of alumni-student seminars is scheduled Thursday under the heading, "Symposium I," including the appearances of Bishop Kennedy, Mrs. Drury, and Dr. Glasser. At 7 p.m., will be the Silver Anniversary Gala, a commemoration and awards dinner. Featured will be the formal reunion of the class of 1945 and the first presentation of scholarships — 19 in all — from The Harry Schrillo Endowment and Scholarship Fund sponsored by the La Sierra alumni.

Victory dinner

The gala will be a "victory" dinner marking progress in the Schrillo fund campaign and guests will include contributors of \$25 or more and student contributors of \$10 or more.

Friday will feature "Symposium II," the continuation of seminars, including the addresses and question-and-answer discussions with Mrs. Evers, on civil rights, and Dr. Hayakawa, on campus unrest. The Friday convocation will feature a keynote address by Sydney E. Allen, PhD, class of '50, dean of the Philippine Union College School of Theology, Caloocan City, Philippines, on the topic, "Where Do We Go From Here?"

Saturday workshops are scheduled at 8:15 and 11 a.m. with Thomas H. Blincoe, the

Mr. Tunney

Dr. Hayakawa

Kaleidoscope begins

The "prime mover" behind the "Kaleidoscope 70" events marking La Sierra's silver anniversary is Robert E. Lorenz, MD, president of the La Sierra College Alumni Association.

Dr. Lorenz, class of '51, is the head physician of the Neurology Clinic at White Memorial Medical Center, Los Angeles. In 1951 and 1952, while a La Sierra student, he organized a student public relations office that conducted promotional programs in academies throughout the Pacific Union Conference. For that service, he received the first La Sierra College trophy for "loyalty" to the college, presented by the president, Godfrey T. Anderson, PhD.

He went on to receive his doctor of medicine degree in 1957 at Loma Linda University School of Medicine after

spending an extra year in pre-medical study at the University of California at Los Angeles. He interned at White Memorial Medical Center and has spent time since in three hospitals, Glendale Adventist Hospital, Los Angeles County General Hospital, and the White Memorial Medical Center.

Dr. Lorenz was elected president of the alumni association last April and within weeks conceived the silver anniversary project and the campaign for the Harry Schrillo fund. The alumni executive board and others spearheaded plans that culminated in a series of La Sierra College Alumni Association "rallies" conducted from May through November.

After John Pelt, class of '53, pastor of the Vallejo Church, received a call to

ROBERT SEYLE SHOWS ONE OF HIS ART WORKS made entirely of wood and nails. Mr. Seyle, a former La Sierra student, will participate in an art show scheduled for Saturday night, February 21.

This special insert on "Kaleidoscope 70" was produced by the La Sierra campus public information office under the direction of Harold M. Wynne, assistant professor of journalism.

Tunney, who is campaigning for a seat in the United States Senate; Methodist Bishop Gerald Kennedy, of Arizona and Southern California; Tressa Drury, consumer adviser for Westinghouse and consumer affairs editor for Los Angeles radio station KFWB; United States Congressman James W. Symington, former chief of protocol for the United States Department of State; William Glasser, MD, noted psychiatrist and author of the books *Reality Therapy* and *Schools Without Failure*.

Among the speakers will be prominent Seventh-day Adventists including Reinhold R. Bietz, chairman of the University Trustees and vice president of the General Conference.

Five former presidents of La Sierra College who have served since 1945 will participate in several of the activities. They include Lowell R. Rasmussen, educational secretary of the Pacific Union Conference, president from 1942-46; Godfrey T. Anderson, PhD, professor of history, president from 1946-54; Noval F. Pease, PhD, chairman, of the College of Arts and Sciences department of religion, president from 1954-60; William M. Landeen, PhD, professor of history, president from

DONALD J. VAUGHN, assistant professor of music, stands beside the new Casavant organ in Hole Memorial Auditorium on the La Sierra campus. Mr. Vaughn will give the premier concert on the new organ during the "Kaleidoscope 70" celebration.

Alumni and friends returning to the La Sierra campus for "Kaleidoscope 70" will find that the wheels of time have finally overtaken the "Mickey Mouse" pipe organ that was given to La Sierra College in 1935 by Walt Disney.

In place of the "Mickey Mouse" — so-called because it was designed and used originally to provide the background music for Disney cartoons — is a new, custom-made Casavant pipe organ. In fact, one feature of the opening night of "Kaleidoscope 70," Monday, February 16, will be the premier concert on the new organ, presented by Donald J. Vaughn, assistant professor of music.

Loma Linda University's music faculty consider the Casavant to be unsurpassed among organs within California's Inland Empire. Invitations are going out to community cultural and civic representatives to come to see and hear the new organ. The concert is the formal unveiling of a major addition to the cultural and spiritual resources of the area.

The organ was built to order by Casavant Brothers of Saint Hyacinthe, Quebec, Canada. According to Mr. Vaughn, it is especially appropriate for the presentation of music literature. It is a three-manual, 60-rank, 46-stop organ. Installation took half a year and required extensive remodeling of the stage in Hole Memorial Auditorium.

Much time was taken just to "voice" and regulate the new organ for optimum performance in Hole Memorial Auditorium. Because all of the 3,200 pipes of the organ are visible and "speak freely," according to Mr. Vaughn, the result is pleasing to both the ear and eye.

Anticipating that within 10 years the campus may have a new fine arts center, Mr. Vaughn observed that it will be feasible to move the Casavant organ, if desired.

Mr. Vaughn also noted that while the old organ served the purpose of helping students learn technique, it was never adequate for presentation of music literature. In fact, its chief bid for fame came when it was shown and heard on Disney's Wide World of Color during the 40th anniversary observance of Mickey Mouse.

The new organ, however, incorporates advances which enable organ music from all periods, both baroque and contemporary, to be played. The "Kaleidoscope 70" concert will demonstrate that instrumental versatility.

The concert will include works of Bach, Mozart, Mendelssohn, and Dupre, from the baroque era, and will feature the contemporary "Concerto in G-Minor for Organ, String Orchestra and Timpany," by Francois Poulenc. A string ensemble led by Alfred Walters, professor of music, will accompany Mr. Vaughn.

After graduating from the former La Sierra College in 1960, Mr. Vaughn spent two years in military service as a chaplain's assistant and then, from 1962 to 1963, attended the University of Redlands on an organ scholarship, receiving a master's degree in music. For four years he taught music at Columbia Union College, Washington, D.C., while he studied at the Peabody Conservatory, Baltimore. He has completed all work, except a final recital scheduled next summer, toward his doctoral degree. Included have been recitals played in Washington National Cathedral and in the Shrine of the Immaculate Conception.

The Casavant organ concert is open to the general public without charge.

Highlights

Continued from page 1

class of 1945 and associate professor of theology and Christian Philosophy at Andrews University, Berrien Springs, Michigan.

"Anniversary Expo," an evening of exhibits centered in College Hall is scheduled from 6 to 8:30 p.m. followed by the music production also in College Hall.

Sunday's highlights will be a 10:30 a.m. "Brunch With Dr. Alonzo L. Baker," professor of political science, author, and lecturer; the Anniversary Expo exhibits will be open to the public through most of the day; open house on the campus; and the 8 p.m. Arts and Lecture Series address, "Hunger Is A Bad Adviser," by Congressman Symington.

The first 19 scholarships of The Harry Schrillo Endowment and Scholarship Fund campaign will be awarded at the silver anniversary gala Thursday, February 19, during "Kaleidoscope 70" activities on the La Sierra campus.

The scholarships, totaling \$5,400, will include a \$600 award for a college graduate student; six \$400 awards for undergraduate college students; and 12 awards of \$200 each for the Seventh-day Adventist academies in southern California, Arizona, and Hawaii.

Three other awards of recognition will be presented by the La Sierra College Alumni Association, sponsor of the "Kaleidoscope 70" activities. Plaques have been designated for the alumnus of the year, for the senior of the year, and for a distinguished faculty member (Alumni Appreciation Award).

Presentations will be made by the alumni, who have received more than \$8500 since they announced the campaign to raise \$25,000 in the first phase — and a total of \$100,000 within five years — in a scholarship and faculty fund in memory of Harry Schrillo, a long-time friend of Loma Linda University who died last year. Mr. Schrillo had just been elected chairman of the Loma Linda University Councillors and was active in the planning and financing of the new Gentry Gymnasium on the Loma Linda campus.

He died without learning that he had been chosen to receive the University's "alumnus of the year award" at the 1969 commencement exercises.

From the Schrillo fund will come not only scholarships for students and grants to help faculty members continue their education, but, perhaps money to endow a faculty chair.

Two-year campaign

Concurrently, in a separate two-year campaign, the alumni will seek to raise \$200,000 to help the University build a new auditorium and gymnasium with facilities for an alumni center and other faculty offices costing more than \$500,000. Alumni hope to see that structure going up in 1972 and possibly ready by the fall of 1973.

The awards of scholarships and plaques will be made during the gala dinner scheduled at 8:30 p.m. in The Commons. Guests will include alumni and other friends of La Sierra who have contributed \$25 or more to the Schrillo fund and students who have contributed \$10 or more. They will be guests of the University. Contributions will be welcomed up to the time of the dinner so that the first-phase campaign will pass the \$12,500-mark, or halfway point.

George T. Simpson, EdD, professor of administration and guidance, School of Education, will be master of ceremonies. Scholarships will be presented by William Kay, class of '61, Paul Wickman, class of '30, and Curtis Church, class of '65. Paul McFeeters, class of '46, pastor of White Memorial Church and chairman of the alumni awards committee, will be in charge of the awards presentations.

Richard C. Larson, PhD, class of '50, chairman of department of business and economics, will present the opening remarks. A special feature will be an address, from "Brooklyn to Bangkok," presented by Isaac Sanders, MD, assistant professor of radiology and a radiologist at

the White Memorial Medical Center, Los Angeles. Dr. Sanders, who is of the Jewish faith, has worked with medical institutions of Seventh-day Adventists for more than 11 years and last summer spent a month at Bagkok Sanitarium and Hospital at the request of the General Conference of Seventh-day Adventists, to review and upgrade the X-ray facilities at the hospital.

Beginning

Continued from page 1

Colorado and resigned as president-elect of the alumni association, the executive board asked Dr. Lorenz to remain as 1970 president. The board's action was endorsed by David J. Bieber, the University president, as a move in the interest of continuity during the silver anniversary and Schrillo projects.

Executive board

Executive board members are Diana Taylor, history teacher, San Gabriel Academy, secretary; Lois E. McKee, PhD, assistant professor of secretarial administration, La Sierra, treasurer; Philip Dunham, pastor of the Arlington Church; Walter D. Cason, MD, Pomona anesthesiologist; Gary M. Ross, PhD, assistant professor of history, La Sierra; Del E. Herrick, DDS, Loma Linda dentist; Hal Williams, pharmaceutical representative, Riverside; and Dr. Lorenz, as president.

Physician will tell

mission experiences

"Kaleidoscope 70" spokesman reveal that a special feature at the La Sierra silver anniversary gala February 19 will be the illustrated story of an "outsider" serving at a Seventh-day Adventist mission hospital. "From Brooklyn to Bangkok" is the story of a radiologist of the Jewish faith who was asked last year by the General Conference of Seventh-day Adventists to review and update the radiological facilities of the Bangkok Sanitarium and Hospital in Thailand.

Isaac Sanders, MD, a graduate of the New York University School of Medicine in 1955, has been associated with Adventist hospitals and physicians for some 11 years. Currently he is an assistant professor of radiology in the Loma Linda University School of Medicine and Director of Residency Training in Radiological Sciences at the White Memorial Medical Center, Los Angeles.

For four different years he was named "favorite teacher" by senior students in the Loma Linda University of Medicine.

It was not without some trepidation that he accepted the short term mission appointment. Once in Bangkok, however, he became very close to the people while working and teaching in the hospital.

Tickets to the silver anniversary gala are still available by writing to the La Sierra College Alumni Association, P. O. Box 8125, Riverside, California 92505.

CALENDAR OF EVENTS

A series of colorful and entertaining events marking the Silver Anniversary of La Sierra's class of '45 — first to be awarded the bachelors degrees. "Kaleidoscope 70" thus commemorates a quarter of a century of La Sierra's status as a full-fledged institution of higher education.

At press time — with the patterns of color still shifting some — the day by day highlights of "Kaleidoscope 70" are as follows:

(Events scheduled Monday, February 16, through Sunday, February 22)

MONDAY

6:30 p.m. — Opening ceremonies. Political address by United States Congressman John V. Tunney (Democrat, Riverside and Imperial counties), who is a candidate for the United States Senate. Hole Memorial Auditorium.

7:30 p.m. — Reception-press conference with Congressman Tunney following his address (see above). Cactus Room, the Commons. (Students invited to join in the question-and-answer session.) Master of ceremonies: Gary M. Ross PhD, assistant professor of history.

8:15 p.m. — Premier concert on the new Casavant organ, presented by Donald J. Vaughn, assistant professor of music. Hole Memorial Auditorium.

TUESDAY

10:25 a.m. — Commemoration chapel. "Kaleidoscope 70's" keynote address, "Changing Patterns," by Reinhold R. Bietz, chairman of the Loma Linda University Trustees and vice president of the General Conference of Seventh-day Adventists. La Sierra Church.

WEDNESDAY

7:45 p.m. — Alumni — senior class reception — a get-acquainted meeting of 1970's graduating seniors with prominent alumni from the fields of medicine, teaching, business, and the ministry. Refreshments. Chapparral Room, The Commons. Master of ceremonies: Larry Veverka, Bible teacher, Lynwood Academy, Lynwood.

THURSDAY

Various departments of the College of Arts and Sciences and the School of Education will conduct seminars and other activities to which students, faculty, alumni, and the general public are invited free of charge.

Symposium I

1 to 2 p.m. — Address, "Controversy Over Computer Medicine," by J. T. Celentano, PhD, president, Life Systems Research Institute, Los Angeles. San Fernando Hall, Room 203.

(Other department of physics activities begin early as 8 a.m.)

1 to 2:45 p.m. — Address, "Purposes and Priorities," by the Gerald Kennedy, Methodist Bishop of Arizona and Southern California, sponsored by the department of religion. Hole Memorial Auditorium.

1:30 to 2:45 p.m. — Address, "Consumerism — Obstacle or Opportunity," by Tressa Drury, consumer adviser, Westinghouse and consumer affairs editor, radio station KFWB, Los Angeles, sponsored by the department of consumer related sciences. Room 101, Consumer Related Sciences Building.

1:30 to 2:45 p.m. — Address, "Making Business Education Relevant," by Gene

Davis, superintendent of education, Riverside County, sponsored by the department of secretarial and business education. Room 117, Fulton Memorial Hall.

3 to 5 p.m. — Address, "Schools Without Failure," by William Glasser, MD, psychiatrist and author of the books, *Reality Therapy* and *Schools Without Failure*, followed by a demonstration in which Dr. Glasser will use a group of about 20 La Sierra Academy students to illustrate classroom procedures. Sponsored by the School of Education. Hole Memorial Auditorium.

7 p.m. — Gala reception for distinguished guests, the participants in Symposium I, members of La Sierra College's class of 1945, former presidents of La Sierra College, alumni, students, and faculty. Chapparral room, The Commons.

8:30 p.m. — Silver anniversary gala. Commemoration and awards dinner saluting the class of 1945 (this is the formal reunion of the class) and featuring the awards of 19 scholarships from The Harry Schrillo Endowment and Scholarship Fund. Special feature: Address, "From Brooklyn to Bangkok," by Isaac Sanders, MD, assistant professor of radiology in the School of Medicine, and director of radiological training at the White Memorial Medical Center, Los Angeles. Master of ceremonies: George T. Simpson, EdD, professor of administration and guidance. The Commons.

FRIDAY

Symposium II

(Activities in The Commons will be shown by closed-circuit television to an expected overflow audience in Hole Memorial Auditorium.)

9:30 a.m. — Civil Rights discussion by Mrs. Medgar Evers, assistant director for planning and development of the Claremont Colleges Center for Educational Opportunity and widow of the slain field secretary of the National Association for the Advancement of Colored People.

10:05 a.m. — Break.

10:10 a.m. — Question-and-answer period with Mrs. Evers. (Arthur E. Sutton, master of ceremonies for Symposium II, will serve as moderator for this and subsequent discussions during the day.)

10:30 a.m. — Break.

10:45 a.m. — S. I. Hayakawa, PhD, president of San Francisco State College and noted semanticist, will speak on the topic, "Campus Unrest."

11:20 a.m. — Break.

11:25 — Question-and-answer session with Dr. Hayakawa.

12 noon to 1:30 p.m. — Combined luncheon followed by a reception for Mrs. Evers and Dr. Hayakawa, from 1:30 to 2:30 p.m., in The Commons.

7 p.m. — Convocation. University choir and orchestra, directed by Bjorn Keyn. Forum, "Outreach — Changing Patterns," with William H. Taylor, MD, assistant professor of anatomy, moderator, and a panel of three students, three faculty members, and three alumni. Keynote address by Sydney E. Allen, PhD, class of '50, dean, School of Theology, Philippine Union College, Caloocan City, "Where Do We Go From Here?" La Sierra Church.

SATURDAY

8:15 and 11 a.m. — Saturday worship services with Thomas H. Blincoe, speaker, "The Changeless Pattern." La Sierra Church.

11:30 to 2:30 p.m. — Potluck "Eat-In" at The Commons.

2:30 to 2:45 p.m. — "Review and Preview," a narrative presented by Royal and Nancy Sage, focusing on La Sierra's past, present, and future. The Commons.

1 to 5 p.m. — La Sierra historical display, arranged by D. Glenn Hilts, La Sierra campus librarian. Fulton Memorial Library.

4 to 5:15 p.m. — Class reunions: pre — 1947, in La Sierra Hall; 1947-1950, in the student center; 1951-1954, in the club room, The Commons; 1955-1958, in the Chapparral room, The Commons; 1959-1963, in the lobby and chapel, Angwin Hall; and 1964-1969, in the main dining room, The Commons.

5:15 p.m. — Vespers with Harold B. Hannum, professor of music and former chairman of the department of music, playing the organ, and Mrs. Hannum reading.

6 to 7:30 p.m. — Supper at four places: for pizza and tacos, at the Consumer Related Sciences Building, under the direction of the Home Economics Club; for burgers and milkshakes, in the snack shop; for a full meal (\$1.35), in The Commons (during the regular serving period); and, for light snacks, in College Hall, at food booths set up for "Anniversary Expo."

6 to 8:30 p.m. — Anniversary Expo, an exposition featuring exhibits, demonstrations, tours, and other activities, at the Expo booths in College Hall and elsewhere on campus. Adults: \$1.50; students, \$1; children: 75 cents.

Drama students of Paul Hawks will present a play, "A Thing of Beauty," at 6:30, 7, and 7:30 p.m. (three performances) in the auditorium of the Consumer Related Sciences Building.

The Burman-Schliff Architectural Sound and Light Production, "Revolution, Place, Symbol," will be presented in room 131, Communication Arts Building.

A photography exhibit will be presented in room 120, Communication Arts Building.

A foreign service exhibit in room 119, Communication Arts Building will feature a large color map showing overseas mission stations at which La Sierra graduates have served and are serving, and newly appointed La Sierra student missionaries preparing for one-year overseas tours.

Robert Seyle, a former La Sierra student who recently held a one-man show in the Ankrum Gallery in Los Angeles, will present "nail relief" works (pieces created by using boards and thousands of nails).

Herschel Hughes, assistant professor of art, and Chloe A. Sofsky, chairman, department of art, will present a special exhibit featuring line drawings by students which trace the history of La Sierra from 1945 to 1970.

Radio station KLLU-FM, Loma Linda University's educational station, will give a radio demonstration.

Tours

Tours will be conducted at the new Barnard Observatory which, by means of telescope, will take you from the slopes of "Two-Bit" mountain on a "Trip to the Moon."

Expo booths in College Hall will include:

"Food Production for Today's Needs," showing food production and processing of food, by the Agriculture Club and the department of agriculture.

"Voice Analysis — A Comparative

Continued on page 4

Chalmers and Paul Hill; The Rock Island Trio, the Uncalled-For Quartet, the Tursket Ramblers, and the Triple Trumpeteers, and soloists Norman Ault, folksinger, and Carl Holden.

SUNDAY

9 a.m. to noon - Open House on the

campus.

1 p.m. to 6 p.m. "University in Action," the Expo exhibits, held over from the night before, open (free) to the public.

10:30 a.m. - Brunch with Alonzo L. Baker PhD, professor of political science, author, and lecturer. The Commons. Adults: \$1.25, students: 75 cents.

8 p.m. - Address, "Hunger is a Bad Adviser," by James W. Symington, United States Congressman from Missouri and son of Senator Stuart Symington, presented in conjunction with "Kaleidoscope 70" by the Artist and Lecture Series. College Hall. (Alumni, students and faculty admitted free with identification cards).

The Commons

Approach," a department of biology demonstration in which visitors will see a Kay Sono-graph machine record the frequency distribution of their own voices on graphs, which they may keep.

An inhalation therapy department exhibit from White Memorial Medical Center, Los Angeles, in which the effects of smog on chronic respiratory diseases will be demonstrated. Bedside and portable breathing apparatus for positive-pressure breathing assistance will be demonstrated in cooperation with the department of nursing on the La Sierra campus.

Business exhibit

"Business in the West, Then and Now," a recreation of a typical business office of a half century or more ago, complete with antique equipment and furniture, and for comparison, a modern office set-up with the latest available equipment, presented by the Business and Economics Clubs, and the department of business and economics and the department of secretarial and business education.

"From Theory Into Practice," a continuous videotape presentation of micro-teaching in the classroom presented by the School of Education.

"Table Clinic and Dentistry," a Loma Linda University School of Dentistry exhibit.

"A Growing Concern: Health Care," presented by the School of Health Related Professions, showing the development of health care in the United States and the role of supporting professions, with exhibits of the work those supporting professions perform.

"A Maquette of the Proposed Language Research and Culture Center to be Built in 1970," a department of modern languages exhibit on a slanting table and electrically wired so that different parts light up when visitors push the appropriate buttons.

Heart surgery exhibit

"Heart Surgery," a Loma Linda University Heart Surgery Team exhibit featuring motion pictures of heart-surgery and a simulation of operation of a heart and lung machine.

"The Universe: Laboratory of the Physicist," a department of physics exhibit featuring high temperature and plasma jet measurement, astronomical, seismograph, spectrograph, nuclear, and biophysics instrumentation.

"Have a Heart," a department of physiology and biophysics and department of biomathematics exhibit that, among the other things, will permit visitors to simulate heart injuries and then observe the abnormalities in electrical activities. Visitors will receive a cardiograph tracing of their own electrocardiogram, recorded by placing the index fingertip in beakers of water.

"Life and Dynamics of Living," department of psychology exhibit of the physiograph, electrical recordings from the human brain and nervous system of rats, used for monitoring behavior.

"The Health of Seventh-day Adventists," a graphic summary of scientific studies: done on Adventists, presented by the School of Public Health.

8:30 p.m. - Galaxy music production. College Hall. (Featuring such groups as a reunion choral group composed of former Collegians, La Sierrans, and Chamber Singers, under the direction of Moses
